

1 To the Editorial Board of Cadernos de Ciéncia & Tecnologia

2  
3 Dear Editor,

4  
5 Please find enclosed the manuscript entitled "**How will global agriculture and food security**  
6 **respond to future socioeconomic shocks?**" for evaluation in Cadernos de Ciéncia & Tecnologia.

7 Below I present further details on authors' institutional affiliation and contributions to the paper.

8  
9 The manuscript is original, has not been published before, and is not being considered for  
10 publication elsewhere in its final form neither in printed nor in electronic format and does not  
11 present any kind of conflict of interests.

12  
13 As key-highlights of the manuscript, I indicate:

- 14  
15 • Future agricultural output increases will vary with region and SSP<sup>1</sup>-productivity scenarios  
16  
17 • Yield gains will be a major driver, but cropland expansion will still play a role  
18  
19 • The geography of agricultural production will be affected by SSP-productivity scenarios  
20  
21 • The Sustainability (SSP1) scenario should be pursued to reduce food insecurity  
22  
23 • The SSP1 scenario requires R&D expenditures to be set as a global priority.

24  
25  
26 The corresponding author signs this cover letter on behalf of the two authors.

27  
28  
29 Yours sincerely,

30  
31
